

## Information Security Systems (ISS) Supported Mobile Devices

Apriva client applications, middleware, device drivers, and our Gateways and Management Servers support a wide variety of Microsoft Windows Mobile, and RIM BlackBerry devices and operating system versions. The Following devices have been evaluated and used internally as test platforms and have been validated extensively for compatibility with a variety of Apriva's offerings. Devices or Operating systems not listed do not solely equate to non-approval, rather we recommend for any device or operating system you do not see, please contact [SCRsupport@apriva.com](mailto:SCRsupport@apriva.com) to verify and confirmation compatibility.

Device Manufacture	Model	Operating System	Apriva Reader	Apriva Guard	Apriva CSPware	Apriva Voice	AprivaMail	Management Servers	Gateways
