

WALKER BT

Walker BT is a compact Bluetooth-enabled mobile card reader that supports magnetic stripe and EMV chip & signature cards. With AprivaPay Plus and Walker BT, merchants can transform their smartphones, tablets, and PCs into highly-secure, fully-functioning mPOS solutions.

Merchants can lower payment acceptance costs by using Walker BT's embedded card reader that expands their ability to process card-present transactions anytime, anywhere via swipe or dip. The Handheld device is well suited for countertop, delivery and transportation services.

- + Meets EMV standards, enabling merchants to accept EMV-compliant Chip & Signature payments, as well as magstripe payments
- + Is EMV Level 1 and Level 2 certified, Certified Visa Ready, plus MasterCard mPOS and Amex-enabled
- + Maintains robust security with encryption technology that ensures secure and reliable operation in mPOS applications
- + Bluetooth connectivity eliminates audio jack compatibility issues
- + Offers flexibility thanks to Apriva's support for several payment processors and Walker BT's compatibility with Android and iOS operating systems

SUPPORTED TRANSACTION TYPES

- + MSR credit
- + MSR debit
- + EMV contact signature credit
- + EMV contact signature debit
