

Adaptive Payment Platform

Adaptive Payment Platform

Apriva's PCI-compliant payment platform enables you to expand your service offering and white-label omnichannel payment apps, storefront, mPOS, campus, and self-service payment solutions—plus value-added services such as loyalty, recurring billing, and digital invoicing.

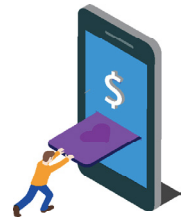

AprivaPay Mobile

Accept payments on Apple, Android, or Amazon devices with a feature-rich mPOS payments app which can be downloaded directly or white-labeled as a reseller. Payments can be integrated into existing mobile apps with APIs or SDKs.

AprivaPay Loyalty

Deliver a mobile rewards program customized to your family entertainment center's brand and engage customers with in-app offers that drive more game play.

AprivaPay Self-Service

Cashless payment acceptance for vending machines, kiosks, and micro-markets featuring two-tiered pricing, multi-vend capabilities and interchange optimization.

AprivaPay eCommerce

Secure online payment acceptance with digital invoicing, virtual terminal, recurring payments, and hosted payment forms.

AprivaPay Storefront

Wireless, dial, and IP terminal applications for MSR, EMV (contact or contactless), NFC payments, plus campus cards, stored-value, EBT, and more.
